# PAS Box
BRICON

Guide

More information on all features of the PAS and be found at www.bricon-pas.com
Accessories and products www.racingpigeon.co.uk

Install your PASbox

1. You open the package of your PASbox, which contains the following:
   - The PASbox
   - A GSM antenna
   - A GPS antenna
   - A bracket to hang the PASbox on your loft

2. Secure the GPS antenna on the top left of your PASbox.
   Secure the GSM antenna on the top right of your PASbox.

3. The GPS antenna is best placed near a window or on the facade of the loft. It is important to place the antenna in a dry spot. The bottom of the GPS antenna is magnetic and can therefore easily be attached to metal.

4. You can place the bracket in your loft and screw it onto the wall. It is important that the PASbox has good reception on that location.

5. Turn on the PASbox, by connecting the antenna cable to the top of the PASbox.

Login PASlive

1. You received your contract via mail or in your PASbox. You can find your login details for PASlive on this contract. Your username is always your KBDB member ID, for example 25449160. Your password can be found in your contract.
PASLive
PAS App

LOGINGEGEVENS
Login: 18439082
Pasw: WwKCcgmg

1. Go to www.pas-live.com and select the correct country.
